DETAILED ACTION

1. This Office Action is in response to communication filed 10/23/02 (paper #16). Claims 1-

4, 11-14 21 and new claims 25-38 are pending.

Response to Arguments

2. Applicant's arguments filed 10/23/02 have been fully considered but they are not persuasive because of the following reasons:

in response to Applicant's argument that Galler fails to teach a first type identifier associated with a second type identifier, Examiner respectfully disagrees because Galler teach in col. 6, line 17-30, the name Johnson with an insertion error is associated with the spelled name Johnson associated with a deletion error.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

Art Unit: 2644

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

4. Claims 1-2, 4, 11-12, and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Galler et al (5,991,720) as set forth in prior Office Action (paper #14).

Claim Rejections - 35 USC § 103

- 5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 6. Claims 3, 13 and 35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Galler et al (5,991,720) in view of in the Background or the Invention as set forth in prior Office Action (paper #14).

Allowable Subject Matter

- 7. Claims 25-34 are allowed.
- 8. Claims 36-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
